# TIPS FOR YOUR NEXT ROAD TRIP:

Here are a few ways to save time and stress in your next adventure:

- 1) Avoid the rush hour crowds at restaurants by planning to make your meal stops *before or after* 8 am, 12 noon and 6 pm.
- 2) Attach a spare bike key to your bike using a zip tie or duct tape.
- 3) Avoid time lost in Urban traffic by riding to the far side of the next city *before* calling it a day. That way you'll have a quicker and easier exit as you head to your next location.
- 4) Backpack Hydration: Carry a backpack water system. It will save time stopping for water, and keep you hydrated while you ride.
- 5) Call ahead or go online to book rooms, since the rates are often cheaper than walk-in rates.
- 6) Rain happens—Choose hard-case saddlebags over cloth for water protection. If you must use fabric, then wrap delicate essentials in sealed plastic bags.
