A Romantic

MOTORCYCLE RENDEZVOUS

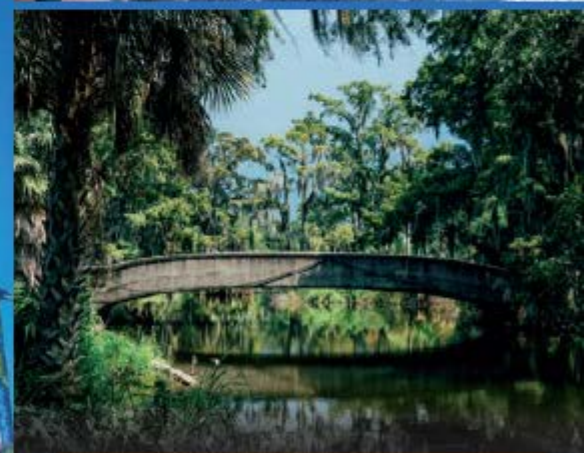

for You & Your Sweetheart in the Big Easy

February is the month for love and romance so why not take your special someone on a Bike trip to one of the most memorable cities in the country: New Orleans?

In much of the country winter snow and cold can leave you and your Bike side-lined. Fortunately, Louisiana's winters are mild enough to make for some great romantic road trip opportunities.

New Orleans is an historical city like no other, steeped in history but vibrant and very much alive. It offers an amazing experience, brimming with music from the original Preservation Jazz Hall Musicians to street musicians serenading you along

the city streets. And of course there's an abundance of delicious Cajun and Creole food to try, with options ranging from 5-Star restaurants to trendy food trucks. With its 300+ year history, you can go back in time and explore museums and nearby plantations or get rowdy in the host of bars along the famous Bourbon Street. Best of all, you can combine all the city has to offer with some excellent scenic bike rides in the area. Ride your Bike to one of the state's many beaches, taking in local fishing camps along the way. Explore the low country's bayous and swamps as well as old Southern plantations and some of Louisiana's 397 miles of Gulf Coast territory.

SHOW YOUR BIKE SOME LOVE

With These Three Hot Gadgets

Your Motorcycle may be your BFF—or even your one true love. Here are a few cool gadgets to help you show your Bike how you really feel...

1) Scottailer Esystem Electronic Moto Chain Oiler

Chain maintenance is an important part of keeping your motorcycle in tip top condition but staying on top of this little detail can be a hassle. The Scottailer handles the chain-lubing duties so you don't have to. It connects to the bike's final drive system with an oil dispenser and reservoir. It comes in both an electric and non-electric version. (approx. \$250)

2) ABUS Granit Detecto Smartx 8078 Disc Lock

Protect your motorcycle from thieving predators with this German security system. The Smartx has a steel locking mechanism with a 13.5mm steel bolt and is designed to clamp down on your bike's front brake rotor. The lock communicates with your smartphone, alerting you if someone is messing with your bike, and it sends out a blasting 100db alarm to send those thieves packing. (approx. \$280)

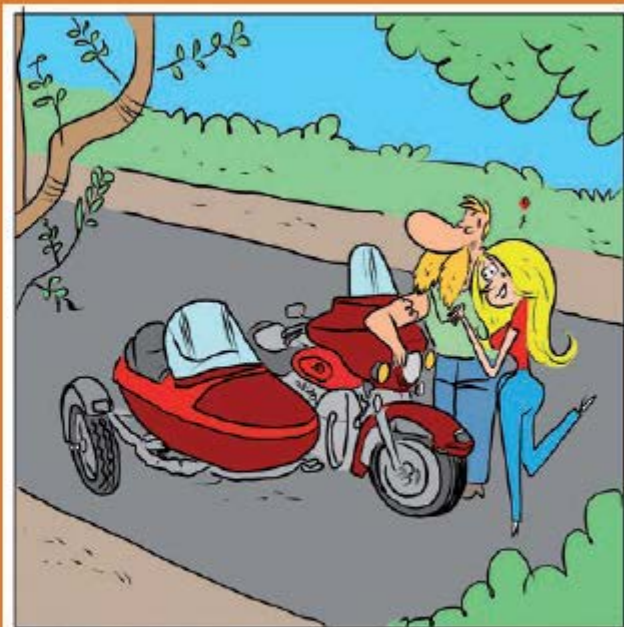

3) Signal Dynamics BACKOFF XP Brake Light Modulator

This handy gadget improves your ability to be seen by other drivers. Designed to run through your bike's stock brake/taillight, it emits a flashing light whenever the front or back brake is activated. (approx. \$48)
