Rolling Thunder

National Ride For Freedom

All Across The Country | Sunday, May 28, 2023

Although the Rolling Thunder Official National Ride in DC ended in 2019, local chapters all across the country are hosting rides on Sunday, May 28, 2023, as part of the National Ride for Freedom. The mission remains the same: to publicize the POW/MIA mission; to educate the public that many American Prisoners of War were left behind after all previous wars; and to correct the past and protect future Veterans from being left behind should they become prisoners of war/missing in action. The organization is also committed to helping American Veterans and their families. 2023 marks the 35th Anniversary Ride. Check for details in local chapters near you, so you can support this worthwhile organization and be a part of this year's National Ride For Freedom.

Thank you to the brave
men and women who
have made the ultimate
sacrifice for our freedom.

4 more reasons to get a

HELMET CAM

- A hit and run driver leaves you with medical bills and no liability insurer to go after.
- An insurance adjuster wrongfully assesses your accident injury claim.
- You are mistakenly identified and given a ticket for illegal behavior by a different rider.
- An angry motorist lies to the police and you need eye-witnesses to prove they are wrong.

How can you overcome all of these hassles and protect yourself for less than \$100?

A helmet cam!

Let's face it... video doesn't lie – but people do! In many instances, video evidence from a helmet cam can give your attorney the ammunition needed to defend you and get the justice you deserve.

We have seen it all. Terrible situations that ended up badly for riders ... In many cases, video evidence would have resulted in a much different outcome:

Are helmet cams illegal?

No. Not if they are mounted properly, with no holes drilled, and they do not impair the structural integrity of the helmet.

Can helmet cam videos be used in court? Absolutely, and in many cases they can be used in settlement negotiations to avoid the time and frustration of going to trial.

What if you don't wear a helmet?

Most cams can be mounted on the bike frame. Get a mount with 360-degree rotation and position it so you can record your speedometer and quickly turn the cam in the direction of an accident or altercation.

What should I do when pulled over? Remove your helmet and place it on the seat facing the patrol car.

Then be as respectful as you can ... you're on candid camera!
